

## **Mara is one stone cold dude**

Unfortunately for you, Buddha was a master of understatement... Mara is not just some bad guy, he is the **personification** of the Standard Model and General Relativity. You are not up against some fairy tale villain, you are up against the nature of your universe & the worst case::: *you the self!* (qv **suttas**)...There is always a loophole—anicca fails because Mara is a permanent “bug” of the universe. Of course, Mara is also Loki and coyote<<<

Sorry to rain on your parade. DharmaC.
